THE EVENT

The **Ideathon** is a **aerospace-related competition** for European students organized by **EUROAVIA**, the European Association of Aerospace Students.

In this competition, the participating teams will have to come up with the best solution to the **challenges** proposed by the companies partnering with us. During the months prior to the event webinars about generic topics and skills needed for the competition will be held so that the teams can be prepared for the **physical event**.

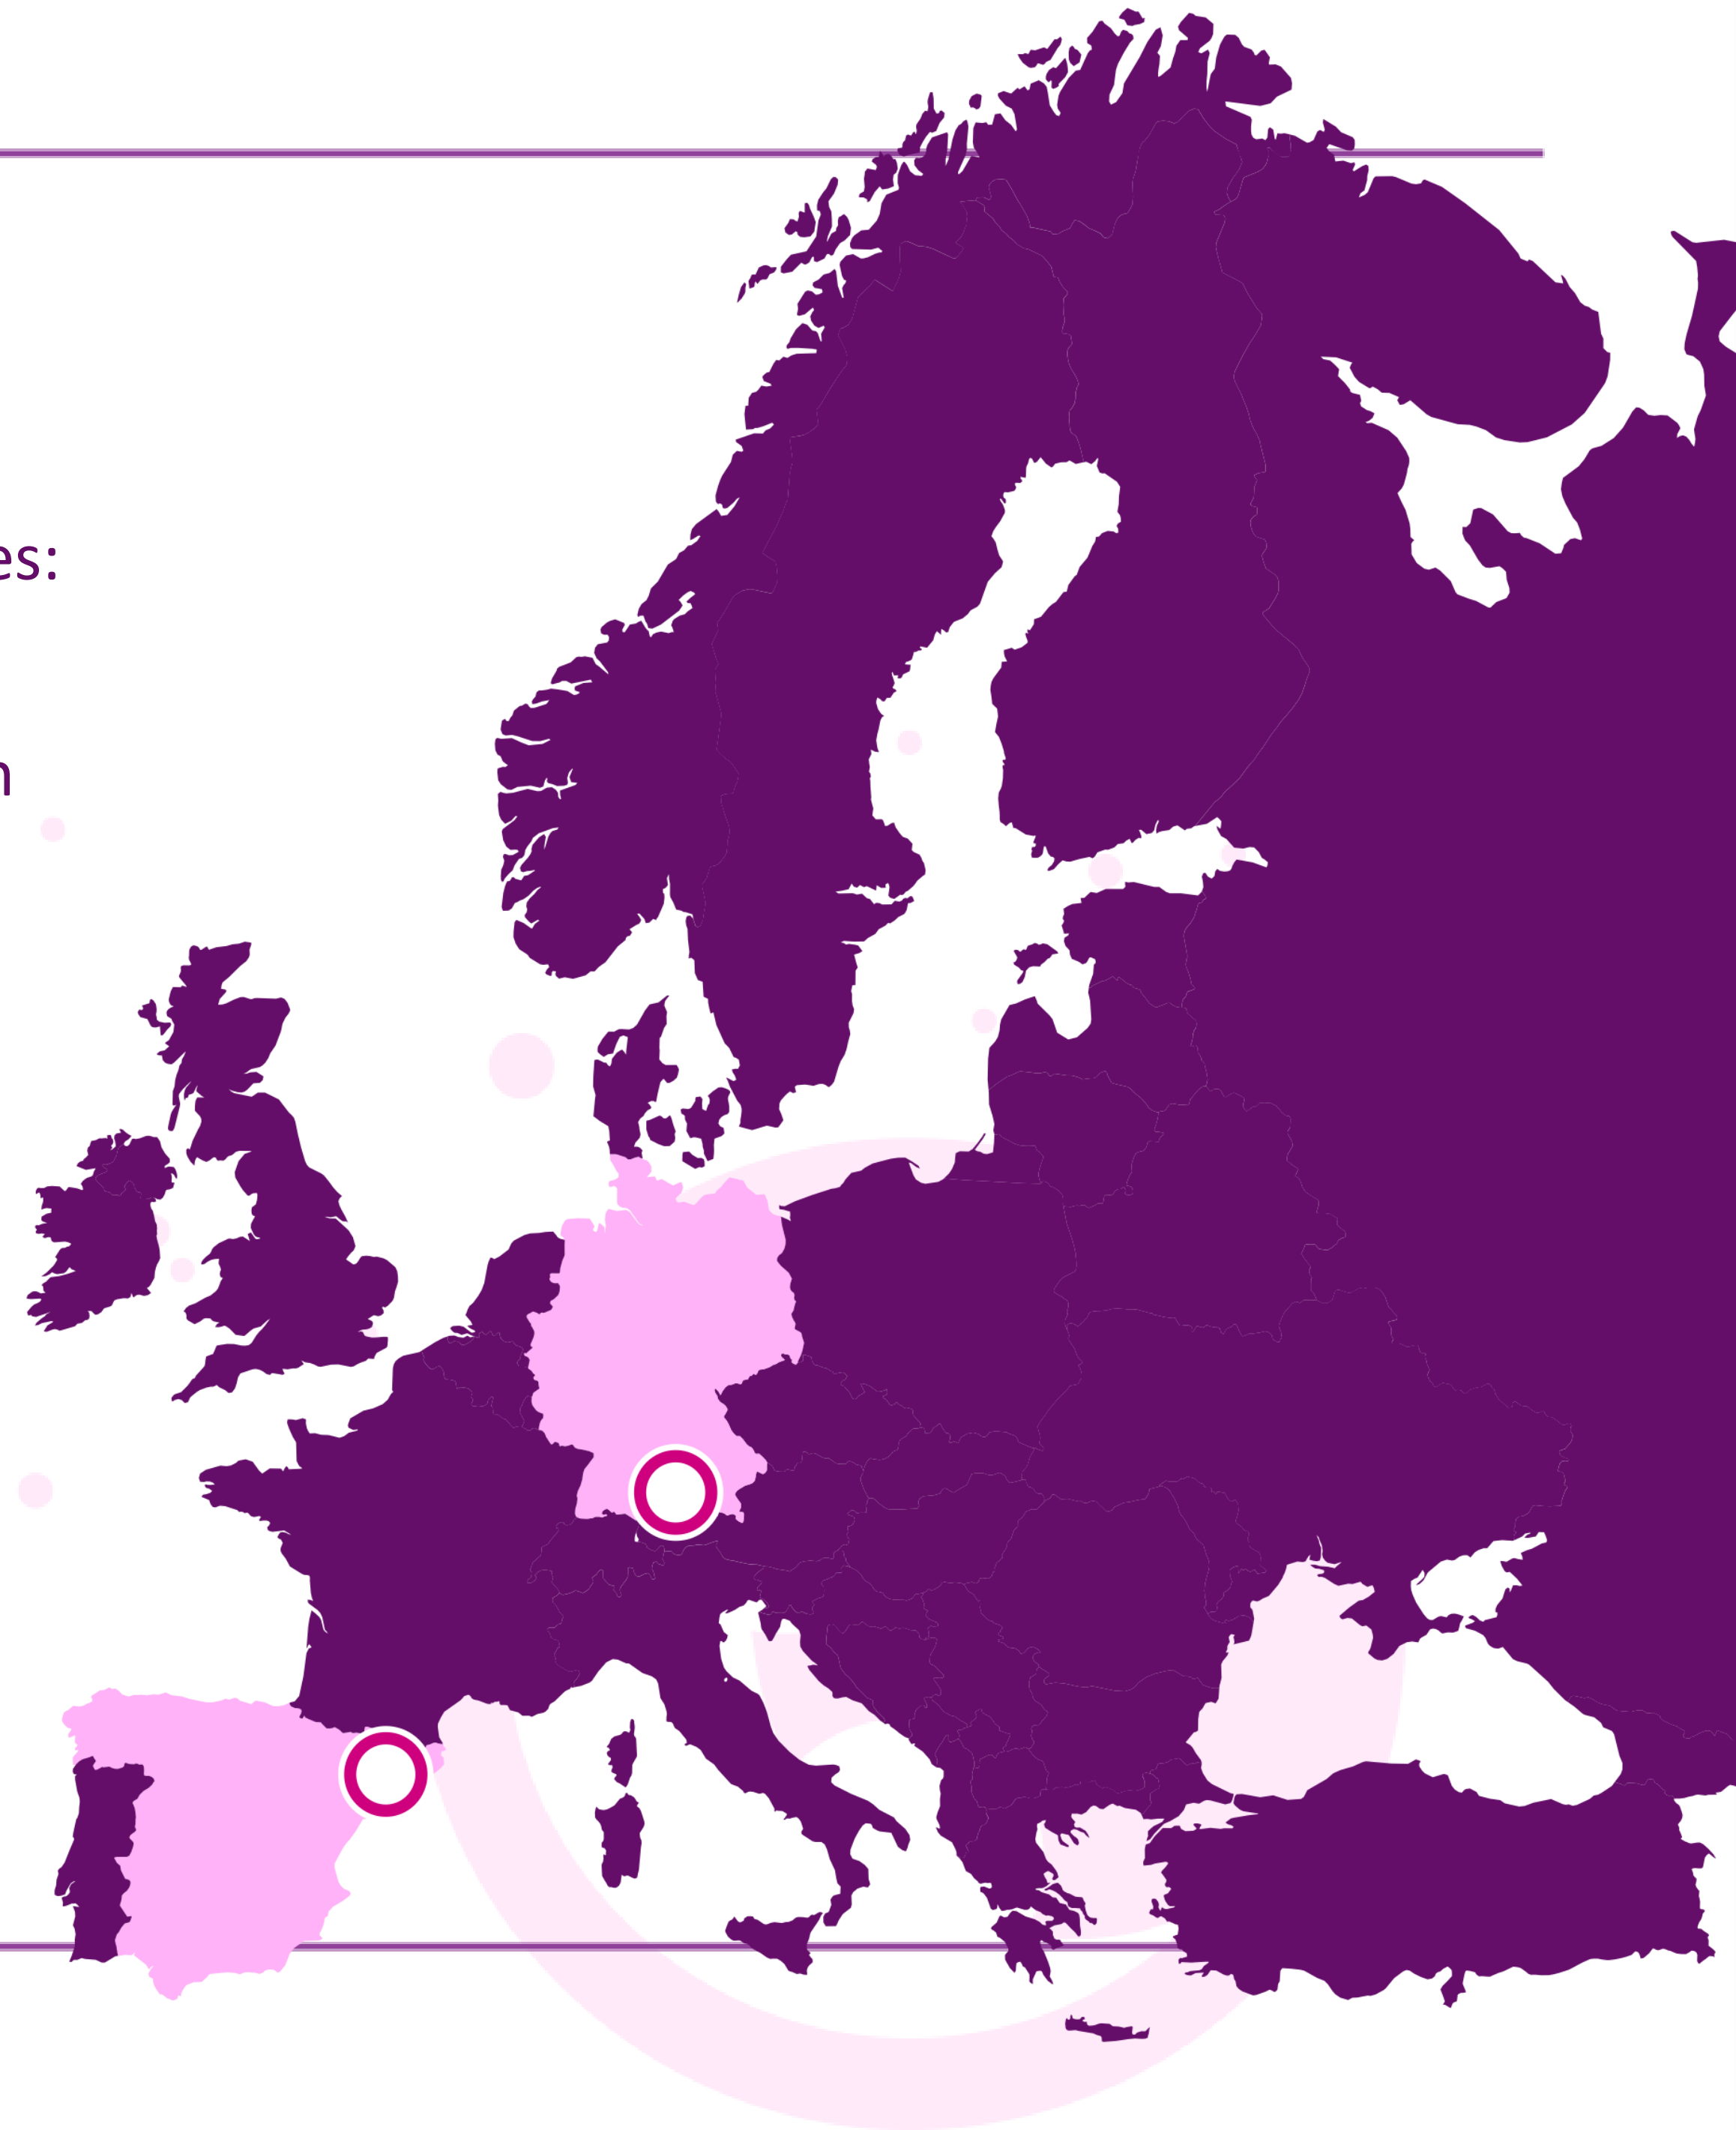

INFORMATION

The competition will be held in Europe and divided in two phases:

- **First Stage:** 3th to 7th of September 2023 in **Terrassa, Spain**
- **Second Stage:** 5th to 9th of November 2023 in **Munich, Germany**

During the first phase, around **50 people** will participate in the challenge in teams of 3-5 people. The winning teams will automatically classify for the final
